Summary

Computer Science student with strong knowledge of Data Structures and Algorithms, and Web Development. Proficient in C, Java, Python, and JavaScript with experience building full-stack applications. Developed AI-based projects and actively participated in competitive programming and hackathons. Interested in building scalable software and intelligent systems.

Technical Skills

- **Programming Languages:** C, Python, Java, JavaScript
- **Web Technologies:** HTML, CSS, MERN Stack (MongoDB, Express, React, Node.js)
- **Computer Science Concepts:** Data Structures and Algorithms, Object-Oriented Programming
- **Competitive Programming:** Solved 200+ problems across CodeChef, Codeforces, and LeetCode
- **Soft Skills:** Logical Thinking, Team Collaboration,

Experience

- Vultr Cloud Innovative Hackathon – Qualified for the **second round among 200+ teams**.
- Smart India Hackathon 2024 – Competed in national innovation challenge and worked in a **6-member development team**.
- Co-Lead of **IEM Gen-AI COE Club** (Apr 2025 – Oct 2025); helped organize **5+ AI workshops** and technical sessions.
- Lead of **IEM Gen-AI COE Club** (Oct 2025 – Present); coordinating **10+ members** and leading AI-focused learning initiatives.

Projects

Mood Based Song Recommendation System

September 2025 – November 2025

- Applied a machine learning model capable of detecting **5 facial emotions** from real-time user images.
- Developed a system that dynamically recommends songs based on detected emotions and updates the website theme in **under 2 seconds**.
- **Integrated Spotify API to allow users to connect accounts and receive personalized music recommendations.**
- Optimized facial feature processing from real-time user images, improving recommendation accuracy and reducing website load time by **50%**.

Library Management System Using Java

March 2025 – April 2025

- Developed a Java-based library management system with functionalities like-adding a book (with author name, book name),searching a book if available,updating, borrowing , returning, reserving and sorting books resulting in a **25%** reduction in check-out times.
- Implemented an overdue system to see all the overdue books in the library and to calculate fine on the overdue books.
- Managed library data for **100+ books** with efficient search and retrieval mechanisms.

Awards & Certifications

- **Google Cloud Computing Foundation – NPTEL(IIT Kharagpur) (2024):** Learned about cloud architecture, virtualization, storage, networking, and deployment of applications on cloud platforms through practical labs and real-world use cases.
- **Academic Excellence Award 2024, IEM:** Ranked 1st in IT Dept in 1st year 2023.
- **Academic Excellence Award 2025 ,IEM:** Ranked 4th in IT Dept in 2nd year 2024.

Education

B.Tech Information Technology

Graduation Year: **2027**

Institute of Engineering and Management, Kolkata

CGPA(to the second year): 9.63 / 10
